ACADEMY OF CLINICAL ELECTROPHYSIOLOGY AND WOUND MANAGEMENT

Explore your Interest 2017

 **APTA**
American Physical Therapy Association

ABOUT THE SECTION

If your practice involves aspects of clinical electrophysiology, biophysical agents, and/or wound management, the Academy of Clinical Electrophysiology and Wound Management (ACEWM) invites you to join us. If you have concerns about current practice or reimbursement issues in the areas of clinical electrophysiology, biophysical agents, and/or wound management, ACEWM is the section for you! Come and be a part of the discussion. Have a voice in your profession. Join ACEWM today.

The mission of ACEWM is to optimize patient outcomes by advancing through physical therapy the practice of clinical electrophysiology, biophysical agents, and integumentary/wound management.

CURRENT PRIORITIES

ACEWM is currently working toward:

- APTA-recognized clinical specialization in integumentary/wound management through the American Board of Physical Therapy Specialties (ABPTS).
- Developing clinical practice guidelines for diabetic foot and electrodiagnostic assessment of carpal tunnel syndrome.
- Publishing white papers on the role of the physical therapist (PT) in wound management, and on PT wound management billing and coding.
- Updating curriculum content guidelines for biophysical agents.
- Developing a mechanism for easy dissemination to members of evidence-based research.
- Developing a state-of-the-art website to improve communication, and provide evidence-based documents and educational resources for practitioners.
- Expanding a mentorship program from early career to seasoned professional.

ACEWM is a venue for:

- Networking with members engaged in clinical electrophysiology, biophysical agents, and wound management practice, research, and education.
- Specialization in clinical electrophysiology.
- Electromyography (EMG) lab accreditation.
- Guidance for academic faculty in designing, developing, and delivering APTA-approved entry-level content in the areas of electrophysiology and wound management.
- Guidance for clinical faculty in developing APTA-approved practice expectations for entry-level PTs during clinical experiences in the areas of electrophysiology and wound management.
- Developing skill and confidence in designing and delivering state, national, and international education/research posters, platforms, and instructional presentations.
- Professional development through elected/appointed leadership positions.

WHY YOU SHOULD JOIN

Take advantage of valuable professional resources available to ACEWM members, such as:

- Mentoring for specialization in clinical electrophysiology and wound management
- Practice-specific electronic mailing lists for clinical electrophysiology and wound management that facilitate mentoring, information dissemination, discussion, and networking among clinicians and academicians around the country
- Special interest group in wound management
- Practice groups in electrophysiology (EMG/NCV) and biophysical agents
- Opportunities to have an impact on your practice and profession by participating in ACEWM work groups targeting clinical practice guidelines, laboratory accreditation

practices, entry-level education, reimbursement, and advanced practice

- Educational guidelines for clinical electrophysiology
- Eligibility for leadership positions
- Opportunities for peer collaboration through various committee and task force work groups
- Discounts on APTA and ACEWM conferences and webinars
- Biweekly and 3 special edition electronic newsletters, plus current updates
- It's fun!

JOIN NOW!

Membership in the section is open to **ALL** current APTA members. Whether you're an experienced professional or a student interested in learning more, ACEWM welcomes your expertise, enthusiasm, and support.

Please check primary interest:

- Clinical electrophysiology (EMG/NCV)
- Biophysical agents
- Wound management
