Continuing Education Units (CEUs)

Attendance at CSM 2018 is worth up to 18 contact hours or 1.8 CEUs.

Over 40 licensure agencies for physical therapists and physical therapist assistants have licensure renewal requirements that include completion of continuing education or continuing competence activities. CEUs earned at CSM are accepted in all states plus the District of Columbia, as allowed by the type of course requirements in state regulations. For specific information related to your licensure requirements, please see www.apta.org/licensure and click on **Practice Acts by State**, or contact your licensure board.

A number of state licensure boards require documentation of learning time spent on content covering evaluative procedures to fulfill direct access certification requirements. Specific educational session information can be found at www.apta.org/csm/ceu/.

Continuing Education Policy

Course content is not intended for use outside the scope of the learner's license or regulation. Clinical continuing education should not be taken by individuals who are not licensed or otherwise regulated, unless they are involved in a specific plan of care.

Scanning

APTA provides an electronic system of badge scanning to verify attendance to educational sessions. Please have your badge scanned upon entrance to each education session. If you change sessions, the last session scanned during a given time block will be the only session recorded.

Your session transcript and CEU letter of participation will be available in the APTA Learning Center at www.apta.org/learningcenter through 2021. Click on **My Learning Activities/My Courses** to claim your CEU credit and download your letter and transcript. **CEUs will be available beginning in April 2018.**

Session Capacity

Although every effort is made to provide adequate seating for all attendees, on occasion rooms are filled to capacity. Fire codes prevent APTA from allowing more individuals in a room than designated by law. Allow yourself sufficient time to arrive at sessions

and, when rooms are filling up, please remove personal items from seats and select seats in the front of the room and in the middle of rows. APTA encourages attendees to select alternative sessions in advance in the event that space is unavailable.

As an alternative, APTA has a limited number of session theaters that will be set up as overflow session rooms. These spaces are located primarily in the hallways/lobbies in the Convention center and the Grand Hyatt. As a session room reaches capacity, an overflow session theater will be assigned. Attendees arriving after a session has closed will be directed to an assigned overflow theater, that will show the slides being presented in real time, along with an audio feed to headsets provided so the speaker's presentation can be heard. (NOTE: Attendees participating in an overflowed session, should scan their badge for CEU credit in front of the original room prior to going to the overflow theater.) Prefer using your own earbuds? Each overflow area will have a technician that will distribute a transmitter that is already configured to the audio station that you need. Just plug in your own headphones. Please note, that the receivers work with the typical wired earbuds, and may have issues with earbuds with a 90 degree angle or any kind of angled headphone jack.
