2021-2022 PTCAS Applicant Data Report

(All uses of this data should reference the American Physical Therapy Association as the source of the data and acknowledge that APTA bears no responsibility for interpretations presented or conclusions reached based on analysis of the data.)

Introduction

The 2021-2022 PTCAS admissions cycle opened June 15, 2021, and closed June 1, 2022. Participating programs submitted admission decisions to PTCAS through September 2022. Not all programs reported acceptance data to PTCAS: **six** programs did not share final admission decisions for applicants with PTCAS at the conclusion of the application cycle. These six programs collectively received 2.0% of submitted applications in the 2021-22 cycle. PTCAS applicants with the following admission decisions were categorized as “accepted” for the purposes of this report: offer made, offer accepted, withdrew after offer made, withdrew after offer accepted, declined offer, and matriculated.

In an effort to bring the PTCAS Applicant Data Report in line with the content included within the PTCAS application, and to meet the increased demand for data regarding DPT applicants, particularly around various facets of diversity, equity, and inclusion, the 2021-22 report has been significantly revised from previous iterations. The report is now comprised of five sections, with the last four corresponding to the four sections of the PTCAS application: cycle summary, demographics, background information, academics, and supporting information. Certain sections previously removed from recent reports have been reintroduced, along with new sections and data being added.

New data points included in various sections of this year’s report include, where appropriate:

- Five-year trend data.
- Acceptance rates for applicants from certain backgrounds or possessing certain attributes.
- Percentage of applicants identifying as a racial/ethnic minority for various demographic, background, and supporting information data points.

New and returning sections providing data on the following topics were added into this year’s report:

- Applications versus offers summary.
- Citizenship, state of legal residence, and childhood residency.
- Financial background.
- High school characteristics and method of completion.
- Academic background, primary colleges attended, highest degree awarded, and college majors.
- Past physical therapy education.
- Observation hours.
- Employment, research, volunteer, and extracurricular activity experiences.
- Languages spoken.
- Military service.

Note: Any discrepancies in the count of applicants reported as accepted in any section of the report are due to updates made by programs while data was being collated for this report. Questions regarding any information or data that appears in this report should be addressed to PTCAS staff at ptcas@apta.org.

Cycle Summary

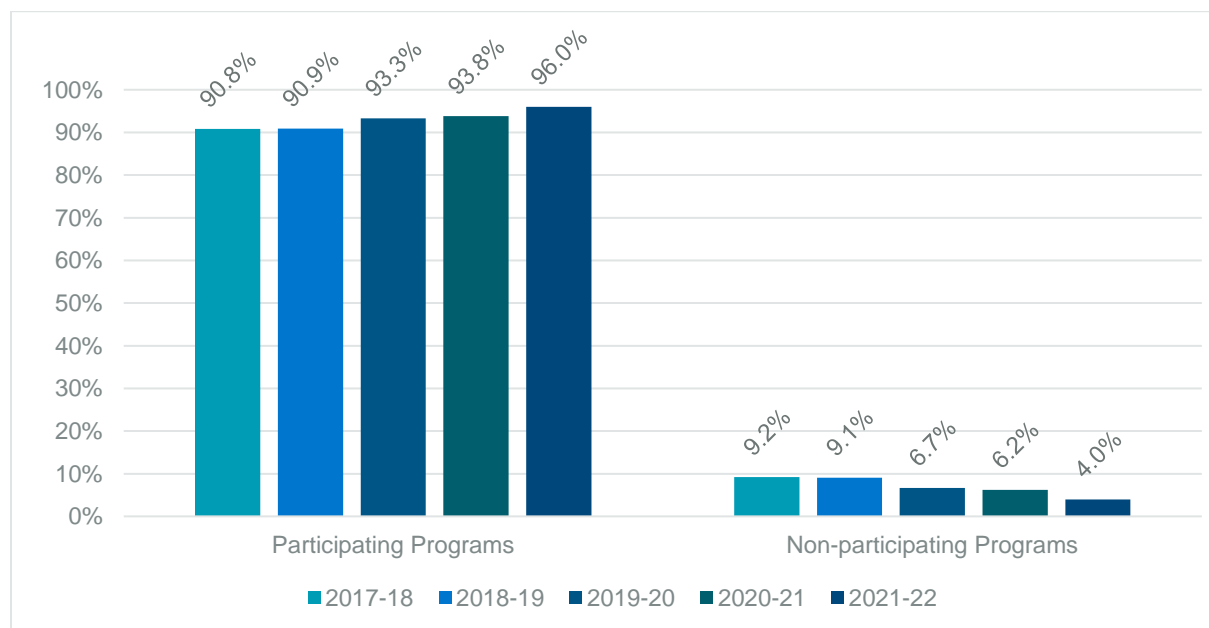

Participation Summary

For the 2021-22 application cycle, PTCAS instituted a policy change on the eligibility criteria for participation in the application service. Previously, programs were required to hold the status of “Candidate for Accreditation” from the Commission on Accreditation in Physical Therapy Education (CAPTE). This policy was changed to allow programs classified as “Developing” by CAPTE to join PTCAS for the current cycle, so long as they were scheduled for review by CAPTE and anticipated receiving their candidacy for accreditation prior to January of the calendar year following the close of the current PTCAS cycle. As a result of this policy change, programs previously unable to use PTCAS to admit their inaugural cohorts were now able to do so, and the number of programs eligible to utilize PTCAS increase to 296.

27 new programs joined PTCAS in the 2021-22 application cycle for a total of **284** participating program and a participation rate of **96%**.

Applicant Volume Summary

The 2021-2022 PTCAS Applicant Data Report reflects the **17,862** applicants with verified application status who applied via the Physical Therapist Centralized Application Service during the 2021-2022 (14th) admissions cycle. Applicants with verified status submitted a total of **94,977** applications to the **284** physical therapist education programs participating in PTCAS.

The number of verified PTCAS applicants increased by **0.3%**, and the number of applications decreased by **2.9%** from the 2020-21 admissions cycle. Applicants applied to an average of **5.3** programs in PTCAS, a decrease of **0.2** from the previous cycle. A total of **12,708** applicants received one or more offers of admission resulting in an acceptance rate of **71.15%**, an increase of 4.8% from the previous cycle.

Program Application Volume Trends

There were **257** programs in the 2021-22 application cycle which participated in the previous (2020-21) application cycle. Among these programs, **30%** experienced an increase in applications and **70%** experienced a decrease in applications from the previous cycle. The mean percent change in the number of applications per program was **minus 7.1%**. The median was **minus 9.8%**, and the range was **minus 59.9%** to **plus 87.4%**. Programs in PTCAS during the 2021-2022 cycle may access program-specific reports via WebAdMIT.

For the 284 programs participating in the 2021-22 application cycle, the mean number of applications received per program was 343. The median number of applications received was 288, and the range was 25 to 1,619. Note: these numbers include only those for traditional DPT education programs and do not include freshman entry, guaranteed acceptance, or dual degree programs. The mean number of applications per program has declined year-over-year for each of the last 5 years, down 42 from the previous year and down 152 from five years ago (2017-18 cycle).

Demographics

Age, Sex, and Gender Identity

PTCAS age data is based on the required “Date of Birth” field in the PTCAS application, as entered by applicants, at the time they applied. PTCAS cannot verify or edit the date-of-birth fields on behalf of applicants; therefore, **some age data may be inaccurate**. Beginning in the 2018-19 application cycle, PTCAS clarified the “Sex” question as referring to the “sex assigned at birth, such as on an original birth certificate.” Additionally in this cycle, PTCAS began asking applicants to provide their gender identity.

Race/Ethnicity

Data in this section references the full pool of verified applicants for PTCAS and is not program specific. Programs in PTCAS can view all the racial and ethnic designations for each application received in WebAdMIT. PTCAS does not separate race and ethnicity for reporting purposes. Thus, an applicant who identifies as being from the ethnic background of Hispanic/Latino and identifies as being part of the African American/Black race would be considered as “2+ Race/Ethnicity Designations.” PTCAS also breaks down applicant designated racial and ethnic designations by all that were chosen to identify all applicants who have indicated they identify in whole or in part as being of a racial or ethnic identity. Data on the breakdown by applicant count and by race/ethnicity count (ignoring 2+ race/ethnicity designations), as well as trends in both can be found in this section of the report.

PTCAS applicants can select one or more race and ethnicity categories. Categories in the tables and graphs below labeled “Ignoring 2+” are not mutually exclusive. Therefore, the report and percentage totals in the tables and graphs below exceed the total number of PTCAS applicants.

In addition to reporting on individual applicant race and ethnicity data, PTCAS also reports aggregated data on all applicants identifying as being from a minoritized racial or ethnic background, either in whole or in part, i.e. not exclusively “white.” The percentages are inclusive of the sum total of all applicants selecting any of the following racial or ethnic designations, regardless of whether they selected “white” in addition to any of these designations: American Indian/Alaska Native, Asian, Black or African American, Pacific Islander/Hawaiian Native, or Hispanic. Applicants who did not report any racial or ethnic designations are not included in the below information.

Background Information

In addition to the standard demographics data previously included in this report, PTCAS also collects extensive background information from applicants covering many different areas. Much of this data was not previously shared in previous annual PTCAS Applicant Data Reports.

Beginning in the 2019-20 application cycle, the section of the PTCAS application regarding “disadvantaged applicant” status was edited to include additional questions. As a part of this revision, the Health Resources & Services Administration section was removed, and the “Economic/Educational/Environmental Factors” section of the application was created. Many of the questions previously included on the application regarding an applicant’s consideration as disadvantaged, including in the previous HRSA section, were amended to be more accessible for applicants, and were moved to this new section. All questions related to disadvantaged status were added in line with the [APTA definition of underrepresented minorities in physical therapy education](#), as adopted by APTA in 2014. The questions are intended to assist programs in identifying applicants from economically, educationally, or environmentally disadvantaged backgrounds.

Data regarding an applicant’s status as “disadvantaged” is based on self-reported responses. Applicants were not required to use search tools to determine if they met the federal government’s definition of disadvantaged (e.g., accessing data related to their high school’s college-bound rate, status as being in a medically underserved area/population or health professions shortage area, etc.).

As PTCAS continues to encourage DPT education programs to adopt holistic applicant review models, it is important for programs to consider all aspects of an applicant’s background when reviewing their application. As such, PTCAS is now reporting all aspects of an applicant’s background collected as a part of the PTCAS application process, including U.S. residency status and country of citizenship, state of legal residence, factors related to childhood residency, financial background, and fee waiver status. PTCAS acknowledges that each of these aspects of an applicant’s background can have an impact on the opportunities afforded to an applicant and their subsequent personal, academic, and professional opportunities and performance.

Citizenship

For purposes of this report, the top 10 first countries of citizenship for applicants are reported. For a full list of the first countries of citizenship sorted by country and by count, please see Addendum A and Addendum B of this report, respectively.

Childhood Residency

PTCAS applicants are given the option to, but not required to report information on the type of geographic location in which they spent the majority of their life from birth to age 18, as well as if they were ever homeless during that period of time. Additionally, applicants are able to identify if they feel the geographic location they spend the majority of their life from birth to age 18 was a medically underserved area. Programs wishing to validate if an applicant is from a medically underserved area in the United States as designated by the U.S. Health Resources & Services Administration may do so by using either their current zip code or the zip code of the applicant's reported high found in WebAdMIT and entering it into the [Find Shortage Areas by Address Tool](#) on the HRSA website.

Financial Background

Beginning in the 2019-20 PTCAS application cycle, applicants were given the ability to state whether or not they had paid employment prior to the age of 18, and if so, whether or not the earnings were for discretionary spending or to help support their family. Additionally in the 2019-20 cycle, the question regarding usage of federal or state assistance programs by the applicant or their immediate family was changed from current usage status to usage at any time during the applicant’s lifetime.

PTCAS Fee Waivers

PTCAS offers a [fee waiver program](#) for financially disadvantaged applicants on a first-come, first-served basis. The annual APTA fee waiver fund remained at \$60,000 for the 2021-2022 application cycle. Fee waiver decisions are based on the applicant's income, or parent/guardian income if the applicant is claimed as a dependent, as reported on the most recent federal tax return. PTCAS grants waivers to applicants with earnings that are at or below twice the U.S. Department of Health and Human Services poverty guidelines. Applicants with approved waivers have the initial PTCAS application fee for one program waived, allowing them to apply at no cost from PTCAS. Approved applicants may choose to apply to additional programs by paying the incremental fee for each program. Fee waiver requests are denied if the applicant does not follow the fee waiver instructions or exceeds the income threshold. Approved fee waivers are revoked if the applicant does not submit the application within 45 calendar days of approval.

Disadvantaged Applicant Consideration

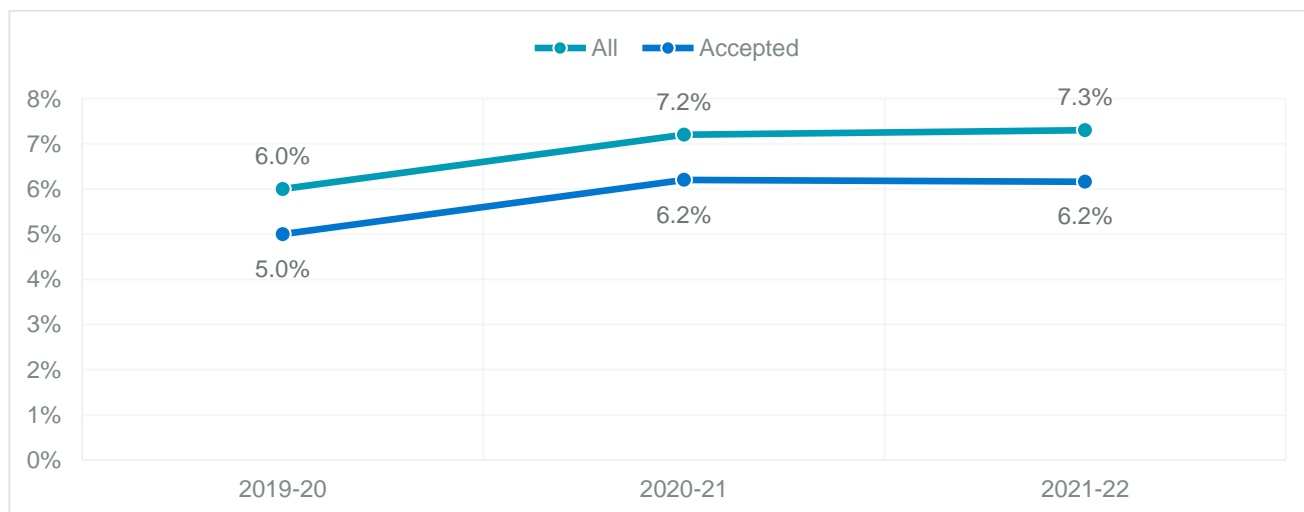

Beginning in the 2019-20 application cycle, applicants are required to indicate whether they wish to be considered by their designated programs as a “disadvantaged applicant” as a part of the “Economic/Educational/Environmental Factors” section of the PTCAS application. This is a self-identified field and is not validated by PTCAS in any way. Programs may access the answers for individual applicants in WebAdMIT, including a narrative explaining why an applicant wishes to be considered as disadvantaged for those indicating they wish to be considered as such.

Colleges Attended

PTCAS applicants are required to list all post-secondary institutions attended as a part of their application. Applicants are required to specify which institution attended was the primary institution attended, defined as being the college or university where the first bachelor’s degree was or will be earned. For a full list of all colleges attended sorted by state and by count, please refer to Addendum C and Addendum D of this report, respectively.

Highest Degrees Awarded

PTCAS applicants are required to list all degrees received from post-secondary institutions as a part of their application. For purposes of this report, only the top 10 highest degrees achieved by applicants are reported. For a full list of the highest degrees awarded for all applicants sorted by degree or by count, please see Addendum E and Addendum F of this report, respectively. Programs are able to view all degrees awarded for individual applicants in WebAdMIT.

College Majors

PTCAS applicants are able to report up to two majors per degree awarded. As such, applicants reporting more than one college major are counted more than once. For purposes of this report, the 25 college majors are shared. For a full list of college majors sorted by major and by count, please see Addendum G and Addendum H of this report, respectively.

Grade Point Averages (GPAs)

PTCAS calculates standardized [grade point averages](#) to help participating programs evaluate applicants using uniform and consistent criteria, regardless of different institutional transcript policies. The PTCAS GPAs are automatically generated by the system after applicants go through the [verification process](#) and are likely to be different from those calculated by the colleges and universities attended due to the PTCAS [grade standardization process](#). PTCAS includes all initial and repeated coursework in its GPA calculations; therefore, the average GPAs may be lower than the average GPAs calculated by a local PT education program. PTCAS calculates standardized GPAs using a semester-based 4.0 scale.

PTCAS previously reported mean GPAs by sex and acceptance status. Going forward, GPAs will not be broken down by sex; however, in addition to the mean GPA for each subject being reported, the median GPA and range will now be included in this report.

Unofficial GRE® Scores

The following tables and figures represent applicant-reported Graduate Record Examination (GRE®) percentile scores on the PTCAS application only and do not reflect official GRE score reports from the Educational Testing Service. If multiple unofficial GRE scores were entered by the applicant on the application, only the data for the most recent test date are included in the mean calculation. Applicants who did not enter GRE scores on the application are excluded from these tables, regardless of whether official GRE scores were received by PTCAS. PTCAS does not verify that applicant-reported GRE scores are accurate or match the official GRE score reports from ETS.

Supporting Information

As a part of the PTCAS application process, applicants are given the opportunity to share supporting information to help bolster their applications, including data regarding their PT shadowing or observation experiences, employment, formal research, volunteer experiences, extracurricular activities, languages spoken, and military service. While much of this data was not previously included in the annual PTCAS Applicant Data Report, it is being provided now for programs to utilize. Programs are encouraged to consider this supporting information as a part of a holistic applicant review process.

PT Observation/Shadowing Experiences

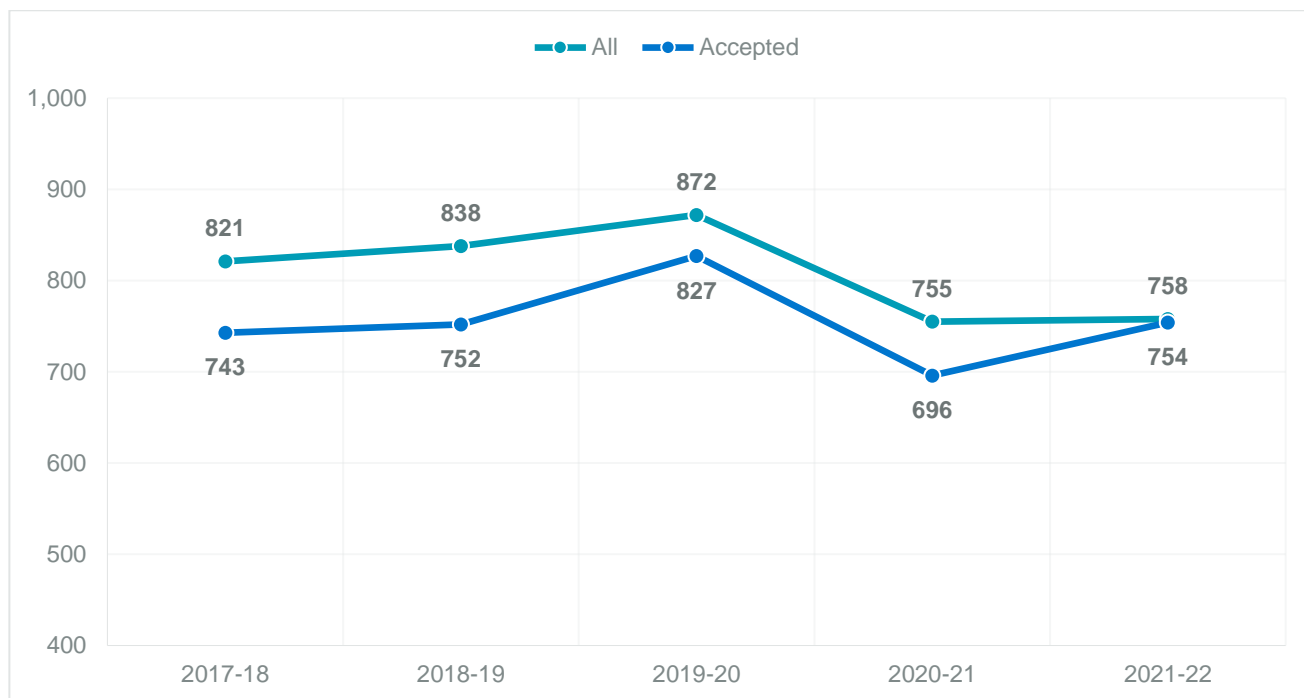

Applicants are able to list both planned/in-progress and completed [observation experiences](#) on their application. Applicants are able to update planned/in-progress experiences at any time during the application cycle; however, once an experience is marked as completed, it can no longer be updated. Experiences can be identified as being for pay, for college credit, or on a volunteer basis. Further, applicants are given the option of having their experience details verified by the PT or PTA they observed. PTCAS does not do any additional verification or validation on experience types and total hours beyond this. Data reported below is inclusive only of verified experiences, both planned/in-progress and completed.

PTCAS applicants are required to list their primary language spoken. Beyond this, applicants may list any number of additional languages spoken along with a proficiency level. For purposes of this report, the top 10 primary languages spoken are shared. For a full list of all primary languages spoken sorted by language and by count, please see Addendum I and Addendum J, respectively.
